

Post graduate Diploma in Cardiac Care Technology(PG-DCCT)

Medical Science has witnessed a significant advancement in the Cardiac Care technology in recent years; Electrocardiogram (ECG), Exercise Stress Testing, Echocardiogram (ECHO) and Cardiac catheterization have been proved as life saving technologies . There is also an increase in the health care setup having dedicated cardiac care facility. However, these advanced technologies require trained health care professionals who can operate machines and can assist cardiologists to make best use of the available technology. There is a dearth of such trained manpower for cardiac care technology.

The 1-year course of “POST GRADUATE DIPLOMA OF CARDIAC CARE TECHNOLOGY” is specifically designed to meet this requirement. Students would be trained in various cardiac care technologies mainly Electrocardiogram (ECG), Exercise Stress Testing (Treadmill Test-TMT), Echocardiogram (ECHO) with an orientation to cardiac catheterization under the expert guidance of teaching faculties/clinicians of Department of Medicine of Pramukhswami Medical College. They would also get an extensive hands-on training at Shree Krishna Hospital as well as at Bhanubhai and Madhuben Patel Cardiac Centre; Charutar Arogya Mandal’s premier Institutions.

Duration: 1 year, Fulltime

Eligibility: B.Sc. (in any subject) from a recognized university

Affiliated to: Sardar Patel University, Vallabh Vidyanagar
