

Dear Colleagues,

The Department of Forensic Medicine & Toxicology, Pramukhswami Medical College, Karamsad is organizing one day CME on Legal & Ethical Issues in Medical Practice.

Routinely, medical practitioners, who are expert in their respective specialty, are not much updated about legal and ethical aspects of medical practice. Lack of awareness about these issues, sometimes creates chaos & litigations that can very well be avoided.

This CME is being held with a view to provide a platform to discuss various legal and ethical issues that arise in routine medical practice like informed consent, medical negligence, documentation, clinical errors etc.

We expect that this CME will greatly be beneficial for the participants in dealing with legal & ethical issues in their day to day medical practice.

We heartily invite you to be part of this academic fest and look forward to your active participation at green and beautiful campus of Charutar Arogya Mandal.

Thanking you,

Organizing Team

Gujarat Medical Council has granted 3 credit points for the delegates of this CME
